RAJYA SABHA

For the current year, the target is fixed at Rs. 12,000 crore. Although every effort is made to maximise proceeds from disinvestment through a transparent and open competitive bidding process, the final outcome depends on various factors like market conditions, financial performance of the companies under consideration and their future potential, terms and conditions of sale, interest of bidders, time taken for due diligence by the interested parties etc. Besides, Government does not disinvest in distress to meet any targets whatsoever. Under the circumstances, it has not always been possible to achieve the targets for disinvestment.
